PROFESSIONAL SUMMARY

Detail-oriented and analytical aspiring data analyst with 2 years of experience training students in Power BI, MS Excel, Power Pivot, Power Query and MS Office. Skilled in data cleaning, transformation, modelling and analysis, and in building interactive dashboards and reports that generate meaningful insights. Seeking an opportunity to support data-driven decision-making and organizational growth.

TECHNICAL SKILLS

- **Data Analytics Tools:** Power BI, MS Excel, Power Pivot, Power Query, MS Office
- **Data Skills:** Data Cleaning, Data Transformation, Data Modelling, Data Analysis, Data Visualization, DAX, Dashboards, Reports, Pivot Tables, Charts
- **Excel Functions:** Lookup Functions, Formulas, Conditional Formatting
- **Artificial Intelligence:** AI-integrated analytics, formula generation, troubleshooting and report preparation

PROFESSIONAL EXPERIENCE

Computer Skills Trainer | 2 Years of Experience

- Trained students in Power BI, MS Excel, Power Pivot, Power Query and MS Office, covering fundamental concepts and advanced features.
- Guided students in data cleaning, data transformation, data modelling and data visualization using Power Query, Power Pivot and Power BI.
- Trained students to create interactive dashboards, reports, charts, pivot tables and data-driven insights using Power BI and MS Excel.
- Explained advanced Excel functions, formulas, lookup functions, conditional formatting and pivot tables for effective data analysis and reporting.
- Demonstrated Power Query techniques for importing, cleaning, transforming and preparing data from multiple sources.
- Taught data modelling, relationships and DAX fundamentals in Power BI and Power Pivot to support advanced reporting and analysis.
- Taught AI-integrated data analytics, using AI tools to demonstrate efficient formula generation, troubleshooting, data analysis and report preparation, helping students improve productivity and automate tasks.
- Helped students apply practical techniques to real-world business problems and build analytical thinking and skills for data analytics roles.

PROJECTS

Portfolio Website: https://claude.ai/artifact/5tmVvMRvzc19rgwqnyhhfY
GitHub Profile: https://github.com/nishanteducation8867-hub/Resume/blob/main/README.md

Sales Performance Dashboard | Power BI report and interactive web version
Live Dashboard: https://claude.ai/artifact/BamzgxgJVZndEYqp1L34uP

- Power BI dashboard tracking Gross Sales (Rs. 44.24M), Net Sales (Rs. 38.98M), Total Quantity (3,457) and Transactions (613), with Top 5 Brand, Month-wise Net Sales and Sales by Category visuals.
- Slicers, cross-filtering, executive summary and key insights with solutions (11.9% gross-to-net discount gap, close brand competition, volatility); web version built with AI assistance.

Techno Sales Analytics Dashboard | Interactive web dashboard (built with AI assistance)
Live Dashboard: https://claude.ai/artifact/ECN9xq7WSk9UiFWWDcQKJd

- Analyzed 5,095 hardware orders (2020-2022): sales, margin, category, brand, state and supervisor performance, with clickable cross-filtering visuals and an auto-updating executive summary.
- Identified key insights and proposed solutions: 63% of sales in Mar-May (seasonality), flat 2020-2022 growth, uniform 23.1% margin, and 71.5% of sales value not yet delivered.

EDUCATION

B.Sc. (Honours) Chemistry; Minor: Hindi
